

FASTER PAY. BETTER COMMUNICATION.

Armstrong Transport Group has partnered with Transflo to bring valued carriers like you **FREE** load tracking and automated load tendering.

That means better communication between drivers, dispatch, and Armstrong. Plus, it gives you the ability to digitize documents so that you can get paid faster.

 **ARMSTRONG**
TRANSPORT GROUP | **TRANSFLO**

It's **FREE** and completely optional

- Transflo will contact carriers that have recently booked a load with Armstrong. If you've worked with Transflo in the past, you're all set! Otherwise, you have the option to click on the link in Transflo's email and ask your driver to download the app.
- The Transflo app gives drivers the ability to scan shipment docs. Watch your essential forms transmit directly to Armstrong for faster invoicing and payment. It's that easy!
- Prefer to opt-out? No problem! Opting out will not change how you negotiate and book loads with Armstrong.

THANK YOU FOR YOUR CONTINUED BUSINESS!
